

Ogden and Layton Will Settle Differences Saturday

BASEBALL STARS PRIMED FOR CONTEST

Ogdenites expect to Turn Tables on Invaders; Shipley to Twirl

Ogden baseball stars of the Wasatch league will tangle with the fast Layton club in the second deciding game of the season at Lorin Park Saturday afternoon. Layton managed to sneak over a 10 to 3 victory on the locals in one of the carnival features here last Monday and from all indications the coming tilt will be a hummer.

"Bill" Shipley is slated to do the twirling for the locals and unless some fortune is against the local stars Shipley should be able to turn in a victory. In the game Monday errors were responsible for the defeat of the locals. Allen twirled first rate ball but was not accorded any kind of support in many of the rounds during the matinee.

With Schultz playing the short field and Wessler at the second station the infield should work like a charm. Peterson at first is fast rounding into shape and should be able to give a good account of himself before the season closes.

French at the far corner is playing great ball and is hitting the ball like a regular Babe Ruth. He is capable of playing any position on the club and is one of the most valuable men on the club roster.

Johnny Myers in left is playing with the class of a major league star. Myers cavorts around in the left pasture during the matinees and is surely in the first class both with the stick and in the field. He is one of the best hitters on the aggregation and is always good for hits during each game.

Miller is playing heady ball and is behind the platter and is ranged with the top notchers in the league. Owens and Butterfield have added needed strength to the outfield.

Heywood, Allen, Shipley, Lockwood and Scott comprise the twirling staff. With these men fast rounding into form it is expected that they will be able to win many games for the locals before the gates are closed for the present season.

"Slim" Williams of Layton will oppose the locals again Saturday. Williams allowed but nine hits in his contest Monday and hurled a steady game. His support was forthcoming, the team playing heady ball.

From all indications the game Saturday should be a thriller and one of the largest crowds in local baseball history is expected to show up on hand when the ump's call for play.

Lord Derby's Archibald captured second place, but the third position was taken by a rank outsider, Sir H. Cunliffe-Owen's Grubbs. In the betting 16 to 1 was laid against the winner. Archibald was quoted at 10 to 1, while 50 to 1 was freely offered against Grubbs.

The Indian may make his reappearance in major league baseball if two Redmen now with the Little Rock Southern league team keep up their good work. They are Wano, first baseman, and Yellowhorse, pitcher, and their performances are remarkable, considering that both are raw rookies. Wano did have some experience with the Little Rock team last year, but this is Yellowhorse's first break into league ball. The Indian pitcher has been a sensation from the time he four years where the pitching plate is located, while Wano leads his team in hitting, and is said to be developing into a polished fielder. Little Rock, by the way, has two other Indians on its team for Guyton, who won fame as a college player, and Casey Smith, over whom the curtain will be drawn for the time being.

CROWDS GIVE LIPTON WARM SEND-OFF FOR U.S.

LONDON, June 2.—Crowds of well-wishers sang "For He's a Jolly Good Fellow," as Sir Thomas Lipton departed by train for Liverpool this morning to embark on the steamship Celtic for New York to attend the international yacht races, in which his Shamrock IV will endeavor to win the America's cup from the American defender, Resolute or Vanitie.

Sir Thomas before his departure said he had every confidence in the Shamrock IV, adding:

"Well, we'll soon know."

RESOLUTE AND VANITIE ELIMINATION RACES

NEWPORT, R. I., June 2.—The sloops Resolute and Vanitie aspirants for the honor of defending the America's cup against the Shamrock IV, will begin their series of elimination races today. Both yachts were anchored last night in Brenton's cove.

Everything is in readiness for the first race to be held off the mouth of Narragansett bay at 11 o'clock. The races will be over the regular course of thirty miles, according to the regatta committee of the New York Yacht club, and the initial course will be to windward and return.

TIJUANA HUMS

SAN DIEGO.—Jim Coffroth did not close his track at Tijuana after the closing of the 100-day race meet. Things are still humming with added purses coming.

A baseball bat will sustain a load nearly three times as great as a steel bar of the same weight.

Nothing Drab About Grover

"COLOR" IN BASEBALL

Change of pace, power of arm to put a hop on the ball, long fingers to grip the sphere into sharp curves, sense of direction to put the breaks where he wants—all combined with quick thinking makes Alexander a peer on the mound. He has never

foiled with freak deliveries since he came up to the majors ten years ago. Grover is distinctly an example of the old-fashioned pitcher. The passing of unorthodox deliveries this year has given him a chance to shine out as a true exponent of the old school—which is really the true art of pitching.

By DEAN SNYDER.

There's plenty of "color" in baseball this year—the sort of "color" that adds brilliancy to a ball club.

Some of the most brilliant players today are often barely mentioned except in the box scores, and yet they are the magnetism of their teams.

Their is the kind of "color" which doesn't attract the dollars at the box office, but the brilliant team must have them just the same.

So are the "colors" that stand out and attract attention—and draw big crowds to the parks to see these.

Fans flock to the parks to see these. Certainly baseball would be drab and colorless without its Siskiers, Cobbs, Sprakers, Collins, Ruths, Hornsbyes and Alexanders.

Nick Drabs.

When the Griffins are in town there is a certain per cent of the customers who go just to see Nick Alexander. He is getting back in the groove. Grover says that a certain well-known fellow, who makes a specialty of home runs at the New York Polo grounds, hasn't much on him this year with the ash.

In the nine full games he has played, the Cub hurler has put the official figure of 417 down as his batting average.

Jim Vaughn is stirring up a little color himself. He's struck a winning stride. "Lefty" Tyler is getting back his southpaw cunning and is riding in the winning Cub wagon.

But right now the big, freckled-faced fellow from Nebraska is doing most to pull the Mitchmen toward the pennant.

The Cub machine has a decided "Alexander" tint.

MAKERS PREDICT RISE IN PRICES OF GLOVES

CHICAGO, June 2.—Higher prices for gloves was predicted today by delegates to the convention of the National Association of Leather Glove Manufacturers.

"Higher prices are due" because of the fact that glove manufacturers are to consider increased wage demands of workers on July 1, and probably will grant more pay.

JAZZY SPORTS

MOSCOW, Idaho, June 3.—With the definite fixing of November 27 as the date of the annual Idaho-Gonzaga contest, the University of Idaho's 1920 football schedule is now complete, according to an announcement by Tom Matthews, university graduate manager.

Contests with the Universities of Utah and Oregon and with Washington State college are perhaps the most important affairs on the Idaho schedule. The complete schedule follows:

October 15—Washington State at Moscow.
October 23—Oregon at Eugene.
October 30—Whitman at Moscow.
November 11—Utah at Boise.
November 18—Montana University at Missoula.

November 27—Gonzaga at Moscow. Aspirants to 1920 football honors will return to college next fall ready for work of the most strenuous sort.

If Coach Thomas Kelley makes effective a program has been announced. "I expect every man who hopes to make the Idaho eleven next fall begin his home training not later than the first of August," said Coach Kelley.

"Only those who return to the university September 12 with legs and wind in good condition will be able to stand up under the vigorous course of training we expect to start from the very first day of registration."

Thirty candidates for the team, all of them men who are not participating either in baseball or in track have been named for spring practice. Wind sprayer, handling the ball and theoretical instruction in the technique of playing the several positions will receive principal stress.

Captain Felix Plastico, Pocatello, state center, is assisting Coach Kelley in the spring practice work.

MISSOULA, Mont., June 3.—Word has reached Missoula that "Click" Clark, regarded as one of the greatest athletes who ever wore a University of Montana uniform, has been employed as coach of athletics at South Dakota Wesleyan college, Mitchell, S. D., next year.

Clark played left end for three years on the Bruin football team, being the 1915 captain, and he also won his letter in basketball and track. In recent years he has lived at Everett, Wash.

HE'S HITTING TOO.

He came up to the Phillies back in 1911. At the end of the 1917 season the Phils sent him to the Cubs with Ellinger for \$25,000 and Fendergast and Dillhoefer.

SPokane, June 3.—Ten Spokane tennis club players have been named to play in the round robin tournament for the right to wear the Spokane colors in the international singles tennis tournament, which has been awarded to the Spokane club for the week of July 6 to 12.

Several of the players are of considerable renown in the northwest and the players chosen to represent this city will compete with tennis experts from Seattle, Portland, Tacoma, Victoria and Vancouver. B. C., Eugene, Lewiston, Idaho, and Corvallis, Ore.

The Spokane round robin candidates are: J. C. McDonald, George Mason, Abner Munn, Penmore Cady, Robert Harper, Ben Anderson, W. S. Fitz, Joe Bailey, Seth Richards and Thomas Bailey. It has been announced that any player outside the chosen ten who feels that he should have the right to represent the city in the international tournament shall have the privilege of challenging any one of the chosen ten and if he defeats the challenged player before July 1, he shall take the vacant place in the round robin.

The round robin tournament will open June 1.

ST. LOUIS, June 2.—Cleveland won from Detroit today, 8 to 6. With the score tied in the eighth and Caldwell well on first with two out, Jameson hit for three bases, while Chapman's double play each doubled Caldwell. St. Louis was a puzzle to Detroit, except in the first and fifth. Score: R. H. E. Cleveland..... 8 12 3 Detroit..... 6 11 2

SOUTHERN ASSOCIATION.

NEW ORLEANS, 1. Mobile 4, Birmingham 2, Atlanta 1, Nashville 3, Chattanooga 1, Little Rock 4, Memphis 9.

FOUR AMERICAN sprinters have made the century in 2 1/4 seconds this year thus far. From the west Haymond, Paddock and Kirksey have won the honors, while in the east Schott, of Missouri, has clipped the distance under 10 flat. Haymond clipped the distance in 9 3/4 seconds at 1700 some time ago, and at the local athletic park last Monday.

Ad Santel, world's light heavy weight mat star, passed through Ogden yesterday en route to San Francisco. Santel stated before appearing that he would spend the summer months resting at the beaches of Southern California.

Frank Kramer, one of the greatest figures in the world in bicycling, is still at the wheel. And to make matters better Kramer is winning consistently. At Newark recently he won four events, hands down. Kramer will be remembered by some of the time bike fans of Ogden. He rode at the Glenwood track during the 1905 season.

DETROIT.—Athletes from Detroit will hold track meet trials on Navin Field June 26, winners to compete at the national games in Pittsburgh in July.

ST. LOUIS LOSERS.

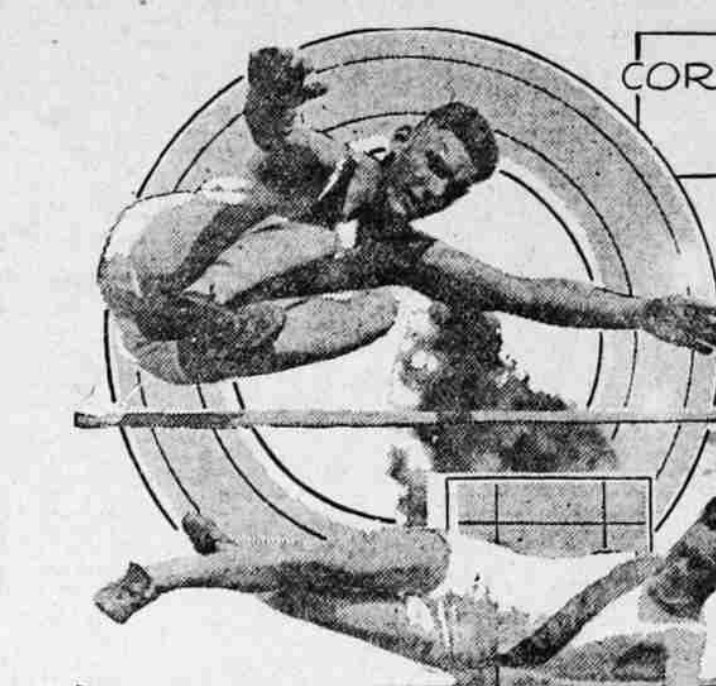

ST. LOUIS, June 2.—Chicago drove Wellman from the box in the first inning today, hit Van Gilder freely, and defeated St. Louis, 7 to 3. Cioetto kept the local hits well scattered, but passed the way for two runs with a home run by Tobin into the right field bleachers in the first inning accounted for the other run. Score: R. H. E. Chicago..... 7 13 0 St. Louis..... 3 12 1

THORPE SPEEDS.

SPRING VS. FORM

Natural spring is pitted against perfect form when Cory of Ontario High school, California, and Voorhies of Pomona college, California, compete against each other in the high jump. They are opposites when it comes to jumping.

Cory, the high school boy, has cleared the bar at 6 feet, 4 inches repeatedly this year. He takes off straight in front of the standard, does not use the scissors or Horine form, and is not very consistent in his work. He is a natural jumper, his legs are veritable springs, and when he learns to lay flat as he crosses the bar, experts believe he will do 6 feet, 6 inches.

Voorhies of Pomona, is not a natural jumper, but he takes advantage of every calory of energy in him. He runs an unusually long way before taking off, and when he gets into the air he lays perfectly flat as he rolls over the bar. Voorhies recently tied for first with Templeton of Stanford.

Muller holds the coast interscholastic high jump mark of 6 feet, 4 1/2 inches. It appears that California, the land of high jumpers, the land of Doc Beeson and Horine, will furnish the United States Olympic team with an avalanche of jumpers.

There are a dozen jumpers in California who clear 6 feet consistently.

WE E GEE SAYS

You may be strong for the summer, But I'm away down in the mouth, For I'll take my fun This fall with my gun When wild geese and ducks travel south.

The whole world loves a winner, But darn few will rally round. If the team is going badly Folks will knock their own home town.

They like to cheer their Speakers And the Gleasons and their pack— But darned if they will whisper For that old fox—Connie Mack.

Things were ever thus. The winning streak is the only one that gets a place—and the lure that goes along with the combination.

The answer to the crowds they are pulling at the Polo Grounds this year is that the team is playing winning ball. You can judge whether the Yankees or the Giants are playing by looking at the stands.

When the Cleveland Indians played a series there recently they came away with one of the biggest cuts on the gate percentage a club ever took out of Gotham.

You've got to hand it to a town that sticks to a loser. Detroit is getting that kind of a reputation. They stayed with Jennings and his non-win combination day after day until finally the Tigers won a game.

Denver used to be the feeder for the other clubs in the Western association. It was a winner then. The team went bad and slid down. The people did the same thing. The club nearly starved and finally dropped out of the league. The city is without organized baseball now.

Folks will make a lot of noises If the team goes in the rough, But it takes the home town spirit To support the losing stuff.

Detroit draws down the poles For the mark that it has set— They've stuck it out with Jennings And they haven't quit it yet.

VALE ATHLETES

START GRID WORK

Summer Practice Being Held Under Direction of Tad Jones; Prospects Good

With the football season still many weeks in the future, Tad Jones, Yale coach, is not overlooking any opportunities to prepare the grid squad at New Haven for his coming next September, when he will warm up to the task of giving the Sons of Eli another winning football combination.

At present, Jones is out in Seattle where he holds a place with a ship building concern, but through the medium of Uncle Sam's postoffice department he is sending dope to New Haven, sort of preparing to arouse the Yale spirit which has been conspicuous by its absence during the past few seasons.

"You can't do anything in football or anything else without some spirit," Jones said recently, "and before we really get started on football plans I want to have the proper spirit started."

Jones has several able lieutenants on the job at Yale, and his instructions are being carried out to the letter.

"Beat Harvard and Princeton," is Jones' battle cry this year, and in order to be fitted to do this, the Elis are going to go through one of the most strenuous campaigns they have ever known. For the past two weeks prospective gridders have been taking some special outdoor work suggested by Jones, and during the summer those of them who usually idly loaf in warm months away will have set tasks designed by Jones via the suggestion route, to keep their muscular systems and wind in proper shape to yield to the training in the fall.

Several of the prospective Yale stars are going in for rough work this summer. They are the kind inclined to stoutness and they have been obliged to do manual labor to train their symmetry and keep the muscles in good condition. Jones does not care particularly for a beefy team, his machines in the past having always won and been entitled to special mention because of their speed.

Dr. A. Sharpe, although not in any way connected with the football situation at Yale since Jones was employed, has volunteered to assist in getting the candidates ready this spring, and he has given them a number of valuable pointers, all of which were in strict accord with Jones' suggestions. Jones says Yale will make a comeback next fall.
